5. Communicating by Fresh Voice V5

Fresh Voice has 4 ways to hold a conference as the following.

Kind	Circumstance	Mode
Quick Conference	Call members from address book to start a conference immediately.	Control Mode / Mixing Mode
Group Conference	Create a group in advance. When hold a conference, select a group and then users in the group will be called together. Scheduling of the start time is not necessary.	Control Mode / Mixing Mode
Scheduled Conference	Schedule a conference in advance by selecting users will be called and setting the start time.	Control Mode / Mixing Mode

Control Mode: Voice of a user, who is holding the right of speaking, can only be heard

Mixing Mode: Voice of all users can be heard.

About group conference and scheduled conference, please refer to the Fresh Voice manual.

5.1. Start a quick conference

Quick conference is a conference mode that you do not have to schedule a conference nor create a group, and can start a conference by just selecting members from address book. When you want to start a conference immediately, you can use this mode. The chairman of a quick conference is the user starting the conference.

- (1) Click the **Address Book** button. The **Address Book** screen appears.
- (2) Select user(s) on the list, and check the users' checkbox.
- (3) Click the **Checked Call** button to start a conference.

5.2. Call users not in the conference to join in (additional convocation)

During a scheduled conference, a group conference, and a quick conference, you can add users to join in. Only a chairman can use this function.

- (1) Click the **Address Book** button. The Address book screen appears.
- (2) Select a user you want to add. Click the user's **ONLINE** button and then the menu tab appears.
- (3) Select **Call**, and then the user will be added.

6. Fresh Voice V5 conference features

Fresh Voice V5's features are as following.

Disconnect	Disconnect a conference.
Show Video	When more than 3 users in a conference, users' video will be shown. A selected user's video can be displayed in full screen. (More detailed information, see "5.6 Make video shown in full screen".)
Web Browser	Browse a website in data sharing area.
Document Sharing	Share Excel, Word, PowerPoint, PDF, Jpeg. files and whiteboard. Drawing on a shared document is available. (More detailed information, see "5.3 Document Sharing".)
Desktop Sharing	Share your own desktop to the participants. Reference and remote control are available. (More detailed information, see "5.4 Desktop Sharing".)
File Transfer	Send a file to the participants. (More detailed information, see "5.5 File Transfer".)

6.1. Chat

Enter the text by keyboard to communicate with the participants in a conference session.

It is a convenient way to check spelling, number, and Chinese characters. When audio conference has troubles, the chat feature is useful.

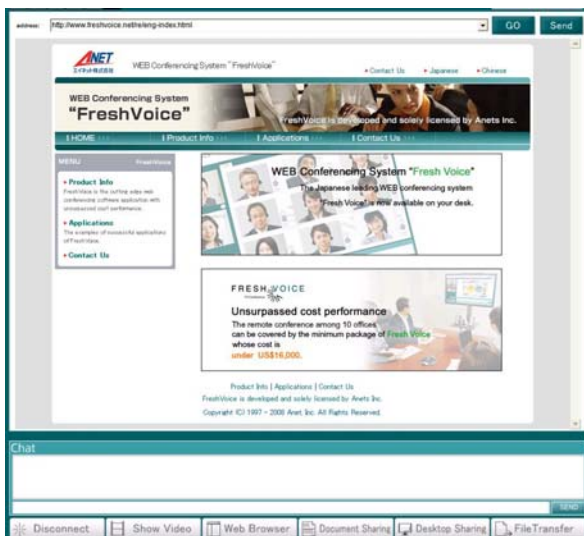

Enter text in the area: Enter text by keyboard and click **SEND** button located on the right or press **Enter** to send the text.

6.2. Web Browser

You can display website to participants by this feature.

Click **Web Browser** button and then the screen will switch to web browser.

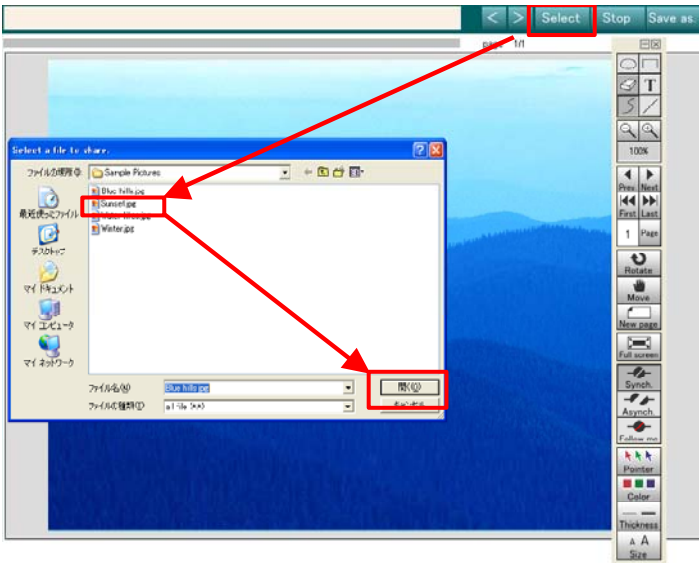

- In the beginning, the home page set as the first page in IE will be displayed.

- (1) Enter desired URL in URL space and press **Enter** or click the **GO** button. (You can click the My Favorite button and then select a web site you saved in the IE "My Favorite" list.)
- (2) The web browser will be displayed in the shared browser area on your screen. Make sure to click the **Send** button. On the participants' side, the web browser will be displayed automatically.
- (3) If you click the **Image Share** button, the web browser displayed will be transformed to jpeg format and switched to document sharing mode automatically.

6.3. Document Sharing

6.3.1. How to share a document

(1)Click the **Select** button on the document sharing screen.

(2)When the dialog box appears, select a desired file.

(3)Click the **OPEN** button and then the document sharing starts.

* The selected file is automatically converted to image file to transfer by Fresh Voice Printer.

* A document with many pages may take time in converting and transferring.

6.3.2. How to use Document Sharing Tool

You can close the Document Sharing Tool (Tool Palette) by clicking the button or right click on document sharing area and then check the **Hide tool palette**. If you want it to be shown again, right click on document sharing area and then check the **Show tool palette** tab.
